How to run test client

1. Start the server in terminal: `python3 assignment2-server.py`

2. Open the client file: assignment1-client.py

3. Modify the line 40 `messages = [2, 5, '3+2+1', 5, '4-1-1']` to your test case like this format and save the modification

4. Run the client in another terminal: `python3 assignment1-client.py`

5. Check the two terminals for output
